---

**RECOMMENDATION**

Staff is recommending that the Mayor and Council authorize the City Manager to piggyback the City of Pembroke Pines Contract No. PSUT-10-01 for the purchase of Sodium Hypochlorite in the amount of \$132,000 with Allied Universal Corporation.

**BACKGROUND**

The Winston Water Plant requires Sodium Hypochlorite, a chemical compound required to disinfect the water during the water treatment process. Disinfection is an integral part of the treatment process mandated by Federal, State and local regulatory agencies. The water plant uses approximately 40,000 gallons of sodium hypochlorite quarterly.

The City previously purchased this product under the Co-Op contract issued by the City of West Palm Beach which expired. Subsequently, the City of Pembroke Pines contracted for the same product. The pricing remained the same. Approval of this purchase will allow for uninterrupted purchases of the needed chemical.
